HORIZONTAL BAND SEALER GBS1100

GBS1100

now in stainless steel!

Gramatech is proud to offer a quality, value priced Horizontal Band Sealer. This free-standing horizontal machine comes standard with a built in conveyor, tilting seal head feature and a fully adjustable stand, all for a price that makes it a value leader. The built in conveyor also features a full range of adjustments. The tilting head feature allows this machine to tilt up to a 30-degree angle, which makes the unit suitable for free flowing products, as well as products that include some liquid in the package. With its all stainless steel construction, this machine is ready to deliver years of use. Contact Gramatech for a distributor near you or arrange for a sealed sample of your product. Gramatech's desire is to become: **Your Complete Packaging Resource.**

GBS1100

All Metal Construction & Powder Coated Finish

- Durable:
  The seal head housing, conveyor frame and the stand are all fabricated with steel and finished with a powder coat.

Tilting Seal Head & Conveyor

- Versatility:
  The seal head and conveyor may be tilted up to 30 degrees to allow for the sealing of free flowing products as well as packages containing some liquid content.

Solid-State Temperature Control

- Accuracy & Consistency:
  The solid state temperature control maintains the seal bars at the proper temperature and allows for the consistent seal quality, regardless of throughput.

Standard Hot Stamp Imprinter

- Versatility & Value:
  Allows for date and lot coding of your packages. This is an expensive option on many competitive machines, but included at no extra cost on our unit. A limited type set is included as well.

Fully Adjustable Stand & Conveyor

- Versatility & Performance:
  The adjustments include overall seal head height as well as conveyor height and conveyor depth, relative to the sealbars.

OPTION/ACCESSORIES

- Teflon Bands
- Extra type characters for Embossing
- Clear Barrier Bags
- Foil Barrier Bags
- Poly Bags
